

TOW223

SANITIZING WIPE

- Surgical Medical Device registered with the Ministry of Health, which rapidly disinfects the skin by preventing bacterial and virus infections.
- Indicated for disinfection of intact skin.
- Especially indicated in skin and hand disinfection, including before injections.
- Non-staining, non-foaming and non-greasy.
- The presence in the formula of sodium hyaluronate and glycerin, perfectly biocompatible emollient molecules, make the skin moisturized and soft.
- The allergen-free fragrance makes the product even more compatible with skin contact, leaving a pleasant scent on the skin.

For further information and/or technical data related to the product, please refer to the Oscar Boscarol Company.
